ATLAS
CommUNITYConnextions

BRIDGING GAPS, BUILDING FUTURES.

About Us

ATLAS CommUNITY Connextions cloud-based system with intuitive interface links your partners to a vast network of services, from employment and education to healthcare and housing. Quickly search available resources, identify right fit and execute referral. Our system provides a dynamic 4-way closed loop referral. Tracking outcomes has never been easier.

Why CommUNITY Connextions?

- **Empower Your Team**: Give your staff the tools they need to deliver exceptional services.

- **Elevate Client Outcomes:** Drive better results through a coordinated, efficient approach.

- **Lead the Future**: Join the movement towards a more connected, responsive, and effective referral service delivery model.

Comprehensive Referral Network
Centralized referral system allows each partner to have their unique profile page. Users remain connected and exchange referrals using a universal referral form.

Accessible Anywhere
24/7 manage referrals from any location, ensuring continuity of services - making it easy to connect people to services when & where they need it.

Streamline Workflows
Reduce manual work with built-in system notifications, gentle nudge reminders and color-coded changes tracking # of days referral is open without action.

Real-time Tracking
Measuring outcomes are critical to tell the story and our system allows you to track dates, referring to/from organizations, service types and outcome status

Enhanced Collaboration
Announcement and **Event**s allow partners to view key announcements and stay up to date on upcoming events throughout the network.

Proven Results
Measuring outcomes is critical, our system tracks dates, referring to/from organizations, service types and outcome status. Focus on measuring program results and overall impact.
