ATLAS
CommUNITY Connextions

There are many referral options available these days, however none are able to match ATLAS CommUNITY Connextions. ATLAS CommUNITY Connextions is a cloud-based platform that connects all your mandatory, co-located, community based and faith-based partners in one centralized system.

ATLAS CommUNITY Connextions, streamlines the needs assessment for community resources, makes a quick connection, and expedites immediate referral. Also, our system ensures a consistent knowledge base for all your staff whether they have been with you one week, one month, or five years - everyone has access to the same information regarding partner and community agencies.
